Further, camera products specifically must be protected, whether in use or not, from exposure to direct sunlight or halogen light which may damage the camera image sensor. This applies to both indoor and outdoor use of the cameras.
- For camera products supplied without a lens, extreme care should be used when mounting a lens on these products. Damage to the product due to incorrectly mounted lenses will invalidate this Limited Hardware Warranty.

- Failure to comply with any of the aforementioned requirements will invalidate this Limited Hardware Warranty.
- Battery replacement - The standard warranty covers a battery that fails from a defect in manufacturing, but it DOES NOT cover batteries that wear out from normal use. The cost to replace a battery depends on your camera model and if the issue is covered by warranty, extended warranty plan, or consumer law. If you are covered by an extended warranty plan and your camera battery can hold only 80 percent or less of its original capacity, we will service your product at no charge.
